
CAREER OPPORTUNITY

At Designs Direct, we bring creativity to life by designing the best home décor products for our retail customers. As a leading home décor supplier, we place immense value on problem solving and critical thinking to produce world class designs and creative solutions to overcome everyday business obstacles. Our creativity makes us stand out from the competition in the home décor industry and drives everything we do.

We're currently growing our IT team and are seeking to fill the role of **Internal Software Developer**. This role will be primarily responsible for developing, supporting and deploying new and existing tools and systems. The majority of tools and applications this role will develop and support are focused on automation and efficiencies across our organization, but the scope of this team isn't solely limited to internal solutions. This person will be in regular contact with stakeholders across the organization, and will collaborate primarily with the Senior Leader of IT to design and execute solutions as opportunities are identified.

RESPONSIBILITIES:

- # Collaborate in research and development efforts for several applications and services;
- # Provide end-user support and modify tools and applications as needed;
- # Communicate with team members regarding projects, development, tools and procedures;
- # Grow and mentor your teammates;

QUALIFICATIONS:

- # Bachelor's degree in computer science, related discipline, or a minimum of four years professional software development experience;
- # Preferred experience in one or more of the following: ASP.NET, C#, JavaScript, HTML / CSS, SQL, PowerShell, Adobe ExtendScript, Python, Computer Vision;
- # Understand how to develop both desktop and web applications;
- # Excellent analytical, written and oral communication skills;
- # Excellent computer skills;

PLUSES:

- # Self-starter or entrepreneurial mindset;
- # Structured, innovative approach to solving problems;
- # Experience with Cumulus DAM;
- # Experience with choosing cloud service providers and/or hardware for on-premises deployments;
- # Experience with Adobe Photoshop / Adobe Illustrator;

REQUIRED APPLICATION MATERIALS:

- # *Resume;*
- # *Cover Letter, indicating:*
 - > Why you are interested in working at Designs Direct;
 - > Why this job appeals to you;

SUBMIT APPLICATION TO:

INDUSTRY & COMPANY CULTURE

Designs Direct is a vendor for major home décor retailers including Hobby Lobby, Big Lots, Family Dollar, Frontgate and many more! We design, manufacture and ship a variety of products - mainly wall décor and lamps. And we are constantly finding new ways to expand our talents and capabilities.

Wondering if you'd be a good fit? Well, company culture is huge at DD! We think of ourselves as one big team, where everyone's unique strengths and contributions play a key role in our successes. As a team, we're really proud of the atmosphere that we've created at the office, where thinking outside of the box is encouraged, and where everyone's input is highly valued. We have a flattened hierarchy that allows each person to take ownership of their own work and grow without limits. This personal development is an area that we actively work on, and since the company is constantly growing, there are endless opportunities for anyone to take on new roles and responsibilities.

Fear not, all of our hard work doesn't go unnoticed. We also celebrate our successes and play hard, too. Summer outings around the city and our annual bus trip to Keeneland are just a sampling of the fun things we get to do together, and no team would feel complete without giving back to the community. I encourage you to visit our website to learn more about our business, culture and involvement in the community at www.designsdirectllc.com.
